Cycurion Federal Solutions

CAPABILITIES STATEMENT · 2026

Technology and operational support for complex environments.

Cybersecurity, site assessments, logistics coordination and compliant technology sourcing for government and regulated organizations

COMPANY OVERVIEW

Cycurion Federal and Intelligence Center helps U.S. and allied armed forces and intelligence organizations plan and execute technology and operational requirements across complex and remote environments. We combine mission-tailored cyber tools, regional research, infrastructure coordination and documented supply-chain processes to reduce risk, strengthen accountability and support reliable mission delivery.

CORE COMPETENCIES

Global logistics and infrastructure support

- Facility, warehouse, office and vehicle coordination
- Commercial air, land and maritime transportation
- Personnel accommodations and project facilities
- Shipment tracking, delivery confirmation and acceptance documentation

Site assessments and regional market research

- Port and infrastructure assessments
- Regional market, infrastructure and supply-chain risk indicators
- Commercial market and service-provider research
- Sourced reporting with clearly stated confidence levels

Mission-tailored cyber tools

- Operational and cybersecurity requirement analysis
- Authorized data integration, monitoring and analysis
- Audit trails, data provenance and change control
- Deployment planning for approved environments
- Tested delivery and optional continuing support

International technology sourcing

- Information technology and communications equipment
- Commercial drone and autonomous-system components
- Delivery, receipt and acceptance documentation
- Commercial satellite connectivity equipment
- Supplier qualification and product provenance
- Financial reconciliation and project closeout

DEMONSTRATED EXPERIENCE

Africa	Market, infrastructure and supplier assessments across selected African markets.
SE Asia	Technology sourcing and supplier coordination across selected Southeast Asian markets.
Middle East	Infrastructure, leasing, transportation and logistics coordination across international markets.

COMPANY DATA

UEI	**KRQTBFSLJFJ7**
CAGE	**84LV7**
Primary NAICS	**541519**
Additional NAICS	**518210 | 541330 | 541511 | 541611 | 541618 | 541690**
Office	**Tampa, FL**
Customers	**Government and regulated**
Contracting	**Prime or teaming partner**
Vehicle	**GSA MAS**

OPERATING REGIONS

Africa · Middle East · Southeast Asia, with additional markets assessed based on customer requirements

GLOBAL LOGISTICS NETWORK

Project-specific commercial air charter coordination

Specialized aviation support through vetted providers

Commercial drone and remote-inspection support

Vetted commercial air, maritime and ground transportation partners

APPROACH

Vetted local and regional service providers

One accountable team from planning through delivery

Documented shipment tracking, delivery and acceptance evidence

Processes designed to support applicable export-control, sanctions-screening, anti-bribery and procurement requirements
